Skills	Node.js, React, Redux, Express, PostgreSQL, MongoDB, GraphQL, CSS, HTML, and Git
---------------	--

Projects	Kolingo	Github Live Site
-----------------	----------------	---

A Duolingo inspired application created using React/Redux on the frontend and Node and MongoDB on the backend

- Achieved sleek and responsive designs featuring collapsible widgets, interactive modals, and animated micro-interactions.
- Utilized React lifecycle method, custom backend REST API endpoints, and a normalized Redux state in order to execute lazy loading of database information while increasing overall scalability.

Codescape

[Github](#) || [Live Site](#)

Escape the room by solving coding challenges built with React, Redux, Docker, Node, Express, PostgreSQL and tested with Mocha and Chai.

- Designed and implemented game interface and logic while developing an intuitive user experience through interactive designs
- Utilized Docker images to run and test user code submissions
- Collaborated in an agile workflow through Github and Waffle.io

Scented

[Github](#) || [Live Site](#)

An e-commerce website that sells scents built with React, Redux, Node, Express, Passport, PostgreSQL and tested with Mocha and Chai.

- A fullstack e-commerce site for purchasing "smells." Worked with team of 4 using agile workflow and Waffle.io.
- Implemented cart functionality for guest users, integrated Stripe API, and enabled other key features (single-product view, user reviews, and ratings)

Experience	Memorial Sloan Kettering Cancer Center, New York, NY —Office Coordinator
-------------------	---

October 2016 - June 2018

- Provided administrative support through the management and coordination of meetings among key stakeholders
- Mentored newly hired staff members to expedite their acclimation to the organization

Education	Grace Hopper Program at FullStack Academy September 2018 - December 2018, New York, NY
------------------	--

Hunter College, The City University of New York
June 2016, New York, NY, B. A in Psychology
